Those of charity and in favor of humane treatment, and the establishment of a modern hospital and poor farm in this county is conceded to be the greatest need from the humanitarian standpoint that this county has to face. Those who have been in any way connected with the care of Orange county's poor and indigent sick know that the present system is full of cruelties that cannot be helped. Suppose for instance there is an indigent at San Juan Capistrano in the last stages of instance there is an indigent at San Juan Capistrano in the last stages of consumption, another at Los Alamitos in the same condition, one at El Modena coming down with typhoid, another at Anaheim suspected of diphtheria, several at Santa Ana that need daily attention. Each and every one of these patients ought to be in a hospital. Some of them will not be taken at private institutions, and, scattered as the cases are, it is impossible for the county physician to give the patients the care they ought to have.

IT IS A CASE OF PASS THE BONDS OR LEVY A DIRECT TAX A representative of the Pacific Electric has permanent lodging quarters for 35 to 100 men who are to start construction work.

No systematic campaign has been made for the passage of the \$100,000 bonds tomorrow for the building of bridges in this county, and many people may not understand the necessity of carrying them.

The Board of Supervisors has promised the State Highway Commission that it will erect permanent bridges along the route through this county selected by the commission as the state route. Those bridges must be built in order for the county to keep faith with the State Highway Commission, and in ease the bonds are not voted a direct tax will have to be levied in order to raise the money to carry out the projects.

PROGRAMME

House and Senate Conferees Fail to Reach Agreement in Heated Conference

WASHINGTON, July 19.-Insisting on a two battleship program, the Senate conferees in charge of the navy appropriation bill clashed last night with the House managers, who stood stubbornly against the established plan and insisted that no battleship should be authorized. They voted a disagreement. No effort to compromise was attempted.

Senator Perkins announced for his colleagues that the Senate had deter-mined on two battleships this year as

a national necessity.

Chairman Padgett of the House conferees said he could not consent to the Senate plan or yield to the Senate argument because a Democratic cau cus had passed a resolution binding him against any battleships.

The conferees were deadlocked and voted to disagree and to carry their disagreement back to the Senate and House for further instructions. In the House an evert will be made by the leaders to reach a compromise agreement. The talk last night was for au-

therization of a single pattle ship.
Within the past two weeks there has been a growth of sentiment among House Democrats in favor of two bat-tleships. Many hold that they are pledged to such a navy increase by the Baltimore Democratic national platform.

Senator Tillman, one of the Senate conferees, left the meeting in disgust when his appeal for an increase in the appropriation for the Charleston, S. navy yard was denied. The Chareston vard is to be the home of th Atlantic torpedo fleet.

W. L. GRUBB FOR SUPER-

The political card of W. L. Grubb as a candidate for the Republican nomination for supervisor from the First district appears in this issue. The candidacy of Mr. Grubb commends itself to those who favor good roads, for he is a good roads enthusiast and experienced in road building. He was a charter member of the first good roads association formed in Colorado, where he lived for many years and where as organizer and president of the State Cattle and Horse Growers' Association he was one of the best known stock

A year ago Mr. Grubb was chosen by the voters of the second ward as their representative on the Board of City Trustees. As chairman of the street committee he has had a good deal to do with increasing the efficiency of the street department. On the various matters that have come before the City Trustees Mr. Grubb has displayed a fair-mindeaness that is highly commendable. His endeavor at all times evidently has been to give everybody a square deal. He has never hesitated about taking a stand for or against any proposition that has come before the board. He has shown excellent judgment and executive ability, and as a City Trustee has shown that he will be a valuable member of any governing board, whether it be municipal or county. As a man and a neighbor everybody has a good word for W. L.

UNIVERSITY AND NORMAL SCHOOL

Growth of attendance at state universities in the United States during the past twenty years has been startling, and the registration in some of them is so large now as to create grave problems of suitable housing and moral guardianship. Fortunately most of them are located remote from large urban centers with their tempof administration and maintenance of Co. welfare work which not all of the

From the pedagogical standpoint also the waxing attendance, unless kept pace with fully on the teaching side, forces upon officials and instructors tasks that are onerous and reduces the efficiency of the institution. Hence in all these swiftly-growing centers of higher education sentiment favorable to devolution of responsibility has been growing. Where the small college exists, the state university, instead of combating the smaller institution, in some cases has gladly done all that was possible to divert to it men taking freshman and sophomore studies. Wisest men in the universities wish that they might concentrate on junior, senior and postgraduate work, and delegate to other institutions the training of youth for university courses so adjusted.

At Wisconsin University this theory has been advocated for some time But, the denominational colleges not being equal to the task, attention has been turned to the state's normal schools, and now a scheme has been worked out by which students matriculating in the university can do fresh-

From an address delivered by H. H. Gross, president of the National Soil Fertility League, before the Los Angeles City Olub, June 29th

The world's greatest asset lies within eighteen inches of the surface. From the soil we get everything we need and if, perchance, the soil should fall us, it would be the end of all. God Almighty spread these fertile fields over the country for a purpose, and that was to sustain humanity; not for one generation, but for all time; and people have no right to deplete the fertility of the soil and dissipate and destroy it. That is what we have been doing in this country for three hundred years.

We have been known as "Soil Robbers." There are millions of acres of land in the eastern part of the country whose fertility nas been so depleted

He didn't know all the factors in the proplem. He has been told to rotate his crops; that is good, provided you know how to rotate. We know about nitrogen; the air is full of it and if you can plant the proper plants to catch it; that is good. I have to be brief and skim over all these things.

Wedded Life Yesterday

The golden wedding of Mr. and Mrs.

J. N. Kellogg of 1115 West Second street was happily celebrated by a dinner at the home of their daughter, Mrs. O. L. Bergen, last evening. Old friends from Nebrasks and relatives joined in congratulations. Covers were laid for the honorees, Mr. and Mrs.

O. L. Bergen and family, Miss Minite A. Kellogg, a daughter, and I. A. Kellogg of Los Angeles, a son; Mr. and Mrs. O. D. Bergen and Kr. W. N. Mrs. Summer, Mr. and Mrs. W. N. Mrs. George Morris and Mrs. Mrs. C. C. Bergen of Long Beach.

The pleasant event was replete with observances recalling the long and happy span of the half a centary spent together by the hale and hearty bride and groom of fifty years standing. The groom is 77 years old and the bride 70.

An interesting fact in connection with this golden habiles. Is that Mr.

An interesting fact in connection with this golden jubilee, is that Mr. and Mrs. Kellogg were married in California, the marital event taking place at Marysville on July 18, 1862. Here the couple met for the first time after each crossing the plains. A brief sketch written by their son, I. A. Kellogg, connected with the Los Angeles Herald, narrates the fact that the two crossed the plains separately, "the one from Illinois and the other from Michigan. Mrs. Kellogg, who was Miss Emma A. Brown, walked nearly every mile of the way from Lansing, Mich., behind a tolling oxteam, spending five months on the way.

Which the party saw "Peg o' My Heart," the sparkling comedy which has been so attractively shown for a number of weeks at the Burbank Theater.

Talbert-Crum

Huntington Beach News: At the residence of Mr. and Mrs. D. M. Crum at Compton, Wednesday at high noon, Thomas B. Talbert of this city, chairman of the board of supervisors of Orange county and one of its most popular and public-spirited citizens, was united in marriage to Miss Marshall and Public and garet Crum, late a member of the fac-ulty of the Huntington Beach Union high school. The ceremony was performed by the Rev. R. R. Raymond of Westminster, a pastor of the M. E. Church, South, and a friend of the

contracting parties.

The bride's home was tastefully decorated with flowers and an arch of Shasta daisies and asparagus fern bent above the happy couple as they plighted their troth.

tains about as much nutriment as two ounces of bread, a good sized potato or a half pint of cysters, says a recent bulletin of the United States department of agriculture. It thus contains about the same food constituents as skim milk, but it has added hygienic value because the protein is more easily digested than the protein in skim milk, and therefore is often prescribed by physicians for children and invalids, especially those suffering from intestinal trouble.

Protein, being the most costly of food ingredients, is the one most likely to be lacking in inexpensive meals, and this is the nutrient which both skim milk and buttermilk supply in a cheap and useful form, and when taken with bread or used in cooking they form a very nutritious addition to the diet. Two and one-half quarts of skim milk or buttermilk contain about the same to the average man, but there is a very great difference between the two, inasmuch as an ambassador possesses many privileges of an ambassador possesses many privileges of an ambassador, who is credited to the ruler of a country and not merely to the government thereof, as is a minister, is that the ambassador may when dismissed turn his back to the sovereign to whose court he has been for the department of languages will be given over to the sewing section of that department.

For Centuries.

"Ambassador" and "minister" mean pretty much the same to the average

turn his back would be to resign a privilege; therefore the ambassador retires sideways. He keeps one eye on the sovereign and with the other he endeavors to find the door. By this unique means he contrives to show all politeness to the sovereign and at the same time retain his ambassadorial privilege in retiring. Another privilege of an ambassador is that of being ushered into the royal presence through folding doors, both of which must be flung wide for him. None save an ambassador can claim this privilege, the greatest favor in this respect that can be shown any non-ambassadorial rep resentative consisting in the opening to him of one door only.

There is one privilege of the ambassador, a privilege that sometimes occasions great inconvenience to the ruler, which consists in his right to demand admission to the sovereign by

Ben Leciago Taken Into Custody at Point of Deputy Sheriff's Revolver

Los Angeles under a five-year prison sentence, is in trouble, and stands a good chance of services and ser good chance of serving out his term.

Leciago has been living near Tal-bert with relatives. Yesterday while intoxicated he went to the Garcia home and with drawn revolver threatened to do some shooting.

Report of this took Under-sheriff Squires and Deputy Sheriff Law to Talbert. Leciago was hidden in an outhouse. Law caught a glimpse of the man. Having in mind what happened to City Marshall Kallenberger of Anaim, who was shot by a drunken Mexican, Law drew his revolver and ordered the man to step out, which did with his hands up. Leciago bad no revolver on him, the weapon being found later by Squires wrapped up in a blanket beneath Leciago's bed.

Leciago will be prosecuted here for carrying a concealed weapon, after which he may be turned over to the Los Angeles police for having broken the terms of his parole.

The exemption of American ships from all tolls was again championed in the Senate yesterday by Senator Townsend of Michigan. He believed the House bill to be better than the Senate measure and aimed his chief criticism at the Brandegee amendment giving railroad-owned steamship companies the right to use the ship companies the right to use the canal. Since all foreign ships are barred from American coastwise canal. Since all foreign coastwise barred from American coastwise trade—just as every nation keeps the commerce of its own ports for the commerce of its own nationality—Sen-

The only disarrangement of freights that had been predicted would be a domestic one, he declared, in which other countries were not concerned. Under the Clayton-Bulwer treaty, he pointed out, our hands would have been tied, but under the Hay-Pauncefote treaty, dealing as it does Pauncefote treaty, dealing as it does with a territory distinctly that of the United Stafes, over which neither Great Britain nor any other power had ever pretended to have any claim, the rights of the United States cannot be successfully denied. J. Floyd Smith Has Been Busy Making Readjustments in His Aeroplane

J. Floyd Smith, who built a biplane here and flew it first at Stanton, took his wife for a ride on Wednesday evening of this week. The flight was made from the Palmer tract. While Smith and his wife, who has an ambition to become a rival of Blanche Stuart Scott, did not ride but a few yards from the ground, they circled the field nicely.

Smith did not take his machine to Arizona for a Fourth of July flight, as he had expected. He has been busy with it here making readjustments. He has put on an extra seat and fixed levers so that the passenger can also control the machine. The driver has the longest levers, and can keep the passenger from taking control from him. The devise ought to be an excellent one for the teaching of flying.

IN BEAUMONT FLIGHT Committee Issues Statement in Favor of Bonds

To the Voters of Orange County-| successful carying of these bonds At a meeting of the directors of the Santa Ana Chamber of Commerce on Luly 17th the metter came up of your Santa Ana Chamber of Commerce on July 17th, the matter came up of voting for the proposed issue of bonds in that young man's flights at Santa Ana. De Kor learned under Glenn Martin's direction, and while aere he made a number of excellent flights, it's State Highway Commissioners. The requirements of this fates turned over to hits by bridges to meet the requirements of the Santa Ana.

Last fall he went to Texas to fill several dates turned over to hits by Martin, and since then little has been heard of him. There was a report that he had had hard luck with his machine, and bad weather had interferred with some of his dates. Then came a report that his machine had become almost useless and that De Kor was broke and out of the flying game.

VISITORS HERE

Among Them Editor of Wall Street Journal and New York **Booster Secretary**

Mr. and Mrs. H. S. Kennedy and Mr. Kennedy's mother, Mrs. S. E. Mr. Kennedy's mother, Mrs. S. E. Kennedy, formerly of this city, but now of Los Angeles, have been entertaining a party of distinguished visitors from New York City. In the party are Thomas B. Pratt, editor of the Wall Street Journal, his father and mother, Mr. and Mrs. S. S. Pratt, his two sisters, Miss Winifred B. Pratt and Mrs. H. T. McTighe, and the two small children of the latter. Mr. S. S. Pratt is the secretary of the Chamber of Commerce of New York City.

York City.

For the past two or three days, Mr. Thomas Pratt and his sister, Miss Winifred, have been visiting in Santa Ana and vicinity, the guests of the Kennedys and relatives of Mrs. Kennedy here. Their visit in Santa Ana has been of longer duration than had been planned, owing to an accident to Mr. Kennedy's automobile which necessitated considerable delay for repairs. The autowas the big "Premier Six," which Mr. Kennedy says has "traveled 45,000 miles and never balked before."

fore."
Mr. Kennedy had intended taking his friend, Thomas Pratt, on an auto trip in his new Buick roadster, but Mrs. Kennedy and Mr. Pratt's sister, Miss Winitred, got their heads to-gether and decided the men would be more likely to keep out of mischief if they were accompanied by their respective relatives, so there was nothing else to do but take the touring car. "Besides," remarked

where he telephoned to his brother-in-law, Mr. Walter Congdon, who sent a car out to tow the unfortu-

nates in. So this is how it happened tha the four somewhat dilapidated and solled persons have had the pleasure of spending a few days in this city. They have been "camping out" at the home of E. B. Trago on Cypress The car having been repaired, the

party concluded its visit here last night and returned to Los Angeles. While here Mr. Pratt has been while here Mr. Fratt has been gathering data regarding crop statistics and general business conditions which will be of interest to the readers of his journal. He is much impressed with Southern California

pressed with Southern California and its wonderful possibilities.

When asked last night by a Register representative regarding the financial situation in the East, Mr.

"The general business tone is good, and in some lines there has been a marked improvement. Especially is this true of the steel trade, in which there is unusual activity at present. In the dry goods line the market is opening up strong. In fact there is a general improvement all along the line."

Mr. Pratt did not discuss politics at least he indicated that he is a great admirer of Colonel Roosevelt. He gave it as his opinion that in four years from now there will be no Republican party.

FRECKLES

Don't Hide Them With a Veil; Remove Them With the New Drug

An eminent skin specialist recently discovered a new drug, othine—double strength, which is so uniformly successful in removing freckles and giving a clear, beautiful complexion that it is sold by Wheeler & Mateer under an absolute guarantee to refund the money if it falls. Don't hide your freckles under a veil; get an ounce of othine and remove them. Even the first night's use will show a wonderful improvement, some of the lighter freckles vanishing entirely. It is absolutely harmless, and cannot injure the most tender skin.

Be sure to ask Wheeler & Mateer for the double strength othine; it is this that is sold on the money back guarantee.

TUNTINGTON BEACH is a combination of almost everything desirable for the home-seeker, sojourner, investor and those on pleasure bent. Its Bonds have been voted and some of the contracts let for building this handsome pier, which will be owned by the municipality. climate is perfect at all seasons of the year; its social and moral condiditions are unexcelled; its beauty of location, with superb mountain and marine views, is the delight of all who behold. Besides being a popular beach re-

sort, with fine surf bathing and fishing, modern pleasure pavilion, pier and bathhouse, a superb beach and sightly ocean front bluffs, Huntington Beach is a commercial and industrial center. It has a "back-country" of thousands of acres of the richest and most beautiful agricultural lands-peatlands for celery, sugar beet lands, bean lands and lands suitable for all kinds of crops. On the outskirts of the city are located a great sugar factory, tile factory, barley-crushing and bean-cleaning plants. The city has over 1500 inhabitants and is growing rapidly. Splendid schools and churches are there, broad paved streets, fine business blocks, beautiful homes. Railroad facilities include the Southern Pacific steam road and the Pacific Electric trolley lines, one running in from Santa Ana, the county seat of Orange county, and the other from Los Angeles, extending on to Balboa. Arrangements have been made by which Huntington Beach will in future have a 45 minute car service to Los Angeles the year round with three flyers daily to Zaferia, the junction for Long Beach. Huntington Beach has been chosen year after year as the place of meeting for the Southern California Veterans' Association, Aug. 13-23; Socialists

encampment July 1-7; Methodist camp meeting July 21-August 4. One of the most popular attractions of Huntington Beach is its "Tent City," located only three blocks from the ocean, convenient to car lines. "MAKING GOOD"

People are said to "make good" in a financial way when they apply that wisdom in administering their incomes which enables them to lay up something.

You will never make good financially as long as you spend all you earn. You will begin to make good when you make a start as a money saver.

New Building Projects Show Falling Off, But Builders Are Satisfied

The most important building project

The most important building project which has been launched in Sants Ana for some months is that of the remodeling of the Spurgeon block, at the corner of Fourth and Sycamore streets, for which it is said plants have been completed and the contract practically let.

The building, it is understood, is to be raised to four stories in height, a new front constructed, elevators put in and the whole converted into a thoroughly modern business block. It is understood that the three upper stories will be devoted principally to offices. The first floor will remain in stores as at present. The building includes the stores occupied by the Crookshank-Beatty Comany the White Cross Drug Store, Hill & Conway's grocery and Roper's book store. It is stated that work on the remodeling will begin in the course of the next two weeks.

Durch Selles Ranch.

Orange News: A. T. Burch, the well known Escondido real estate man, has sold "The Oaks," his big 600-acre ranch at that place. The sum named is \$50,000.

The sale will be of local interest from the fact. that it was purchased by a synuicate headed by A. I. Stewart of Fullerton. It is stated that local men are interested.

IS PREPARING PLANS FOR NEW BUILDING

Contractors Predict Building Boom For Next Fall—Big Structures Planned

Huntington Beach News: S. B.

Zimmer, the local architect, is preparing plans for a building to be used as a manual training and domestic science department by the Huntington Beach grammar school. It will be twenty by forty feet in dimension and be fully equipped with everything necessary for the purpose for which it is designed. The building will be located just east of the present grammar school on Orange avenue and will be completed in time for the opening of the school for the fall term, this year.

The city hall is being renovated and beautified by the owner of the building, a lease for a year having been signed by the city trustees. The walls are being re-tinted and the woodwork varnished and a rail separating the city officers from the public, at the sessions of the trustees, will be built.

BURCH SELLS BANCH.

"I look for the coming fall to show the greatest building activity Santa Ana has ever seen," said a leading contractor this morning. "I base this belief on projects which I have in prospect, and what I hear from other contractors. There may not be a much larger number of buildings erected this fall than in the same period last year, but the average will be much higher, and I should not be surprised to see the permits double in value over last fall. I expect by own business to show an increase of at least fifty per cent."

Other leaders in the building line tell the same story. There are many projects being talked of, and not in a vague way, either. Plans are being considered, and there is no reason to doubt that they will be carried

Other leaders in the building line tell the same story. There are many projects being talked of, and not in a vague way, either. Plans are being considered, and there is no reason to doubt that they will be carried through when the time comes. One contractor has practical assurances of a brick building which will cover a quarter of a block, to be devoted to business rooms on the first floor and apartments above. This same man also has in view the erection of another large apartment house.

so has in view the erection of another large apartment house.

A local architect voices the same views as those quoted above. "There has been a decidedly quiet spell with me recently," he said, but things are beginning to pick up now, and the results will begin to show in a few weeks. The noticeable feature of the situation is the better class of buildings being planned. I have been asked Crookshank-Beatty Comany the White Cross Drug Store, Hill & Conway's grocery and Roper's book store. It is stated that work on the remodeling will begin in the course of the next two weeks.

Just at present there is a decided full in the starting of new building projects, but contractors and carpenters are by no means worried over this fact. On the contrary, in view of the prevailing weather, they are rather glad to see it. All the building trades have their hands full now, and it is said to be very difficult to get men for any new job. According to one contractor there is work enough now in hand to keep everybody busy for another month, and by that time to show up. Building permits for the week just ended were the smallest for a long time.

Accurate placing and pinning to to pied up on the situation is the better class of building sheing planned. I have been asked to prepare tentative plans for several business blocks, of a kind which will be a credit to the city, and there is every indication that the building of substantial residences will continue as actively as during the past spring. I look for the fall months to show the greatest building activity in the history of the city."

A Useful Furniture Hint
This is an excellent and inexpensive remedy for removing white marks caused by standing anything hot or wet upon polisaed furniture. Wash the marks with soap and water, then apply emery powder and rub well in with a piece of wet flannel and leave it to dry. Next wash off the powder with soap and water, dry thoroughly and polish with a good furniture polish.

Anaheim Mexican Turned Back Flip to Escape Oncoming Automobile

Anaheim Gazette: John Dwyer is getting about with a noticeable limp in his left leg, which was sustained some days ago by a kick from a runa-way horse. He saw the broncho tearing down the road near his home on West street and sought to stay it in its mad flight. As he was about to grab the alter the horse turned and let fly at him with both hind feet. He sidestepped but was not quick enough to miss a vigorous kick in the left leg below the knee. John is a member of the water board and is so used to kicks that he doesn't mind anything like that.

As Chester Holcomb was turning into Claudina street from Center in his new 40 Kisselkar one afternoor the vrst of the week, he narrowly missed running into a cholo boracho, who was making across the thorough fare with unsteady gait. Chester turned his machine to keep out of the Mexican's way, but would probably have run over him had not the latter lost his balance and fallen over backwards upon the pavement several feet removed from the point of impact. The cholo was taken to the cooler and Chester proceeded on his way rejoic

SANITARIUM TO BE **ALONG NEW LINES**

Wealthy Los Angeles Woman to Have Tubercular Retreat Based on Home Life Plan

Los Angeles Examiner: A sanitarium where patients may have the advantage of a band concert whenever they wish and where they may get out and dance the Texas Tommy or the Turkey Trot if they are so in clined has been planned by Mrs. Leotia K. Northam of 115½ East Twenty-fourta street, the wife of Col. Bob Northam.

The work on the sanitarium an grounds, which will cost about \$125,-000 when completed, begins today. The site is in the San Jacinto Valley, 2100 feet above sea level and only a short distance from the ranch home of Nat Goodwin.

Mrs. Northam proposes to make this sanitarium a retreat for tuber-cular patients. One building will be reserved for charity patients. Mrs. Northam has some remark-

able and advanced ideas about effect-From a long personal struggle

with tuberculosis, she believes she has mastered the details of its cure and she intends to apply these ideas to the patients at her sanitarium. Patients to Be Amused
There will be all sorts of amuse-

ments for the patients. There will be as little of the sanitarium and as muca of the nome life as possible. Sheds, dairies and gardens will be

on a tract some distance from the main grounds. An artificial lake and an amusement pavilion will be features. There will be a band or orchestra and a

dancing floor will be provided. Croquet grounds will be built for the use of the patients and billiard rooms will be installed in the main pavilion. The general plan of the building and the grounds will be copied from the Saranac sanitarium in the Adirondacks. Work on the superintendent's cottage will begin today. This bunga-

low home is to be occupied by Mrs. Northam, who states that she is going to give up her home life in Los Angeles and retire to this retreat in the mountain country, where she will be the active manager and superintendent of the entire sanitarium and will live on the grounds the year

modities will decline in Los Angeles. At this time of the year it is unusual for eggs and butter to be weak, but the condition is accounted for by reason that the heat has caused people to eat more fruit than they did formerly.

Vegetable and fruit prices were generally lower yesterday. Receipts were heavy and the market was well supplied with everything. Cantaloupes declined, pony \$1.40 and \$1.50; Jumbo, \$1.65 and \$1.85, and standards, \$1.75 and \$1.90 a crate. With a weakness prevailing in San Francisco in eggs and butter it is a foregone conclusion that these commodities will decline in Los Angeles.

Berries were a little firmer yester-day. Loganberries advanced to 7 and 12 cents a box. The receipts of fruit were, estimated, 20 carloads, most of them coming from the

Corn was weak at 60 cents a lug box for the best. Okra was steady at 40 cents a lug. Celery was steady at 40 cents a lug. Celery was steady at 90 cents a dozen for the best, selling as low as 75 cents for inferior stock. Bell peppers were up to 15 and 20 cents a pound, and green chili to 10 and 15 cents. Egg plant declined 2 cents a pound, to 4 and 6 cents, and tomatoes advanced to 1.00 and 1.25 a crate, and were steady at that In the oil list several advances

were recorded.

Receipts of the leading produce staples were: Eggs, 291 cases; butter, 44,754 pounds; cheese, 840 pounds; potatoes, 36 sacks; beans, 13 sacks.

"What seems to be the matter with him?" asked the doctor, approaching the beds'do of the man who lay swathed in bandages.
"He found the gas leak," briefly explained the nurse.—London Tit-Bits.
